VerteX – Topic 4: Async Research Assistant

Repository: <https://github.com/yagubbx/Research-Assistant>

Target final tag: v1.0-final. **Status:** Provided signatures inserted; signing date confirmed by the coordinator.

Team account. Yaqub reports that approximately 90% of the work was undertaken together and implementation commits were submitted from his computer/account. The completed responsibility allocation below records that team account; it is not independent proof of individual authorship. Each member confirms or corrects their entry before signing.

Yaqub Xəlilli (@yagubbx)

Owned responsibility: Integration and delivery; `cli.py`, `core.py`, `config.py`, `models.py`; deployment and submission package coordination.

Co-owned: Shared implementation and document preparation with Səbuhi and Aqil, as reported by the team coordinator; substantial AI assistance disclosed below.

PRs / tests: Submitted PRs #1 and #2; relevant evidence includes `test_se_core.py` and `test_se_cli_service.py`. Recorded automated execution was assisted by Codex, not attributed as a separate personal run.

Reviewed: Shared working-session review reported; no separate formal GitHub approval attributed.

Commit share: 7/9 = 77.78%.

Səbuhi Xamiyev (@KhamiyevSebuhi)

Owned responsibility: AI/service boundary, worker, retry/timeout, search and bonuses: `service.py`, `worker.py`, `resilience.py`, `search.py`, `bonuses.py`.

Co-owned: Shared development with Yaqub and Aqil, per the coordinator's account; sole manual authorship is not claimed.

PRs / tests: Merged PRs #1 and #2; corresponding test areas are resilience, citation retry, search and bonuses. Individual execution is not separately evidenced.

Reviewed: Shared working-session review reported; the merges are verified, formal approval content is not. **Commit share:** 2/9 = 22.22% (merge commits).

Aqil Əsgərov (@agilasgarli-sys)

Owned responsibility: Cache, validation, offline and UI: `cache.py`, `validation.py`, `offline.py`, `web_ui.py`; acceptance/document consistency.

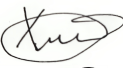

Co-owned: Shared development with Yaqub and Səbuhi, per the coordinator's account.

PRs / tests: No separately authored PR is evidenced; corresponding test areas are cache, validation and UI. Individual execution is not separately evidenced.

Reviewed: Shared working-session review reported; no formal GitHub review attributed. **Commit share:** 0/9 = 0.00%.

Evidence and disclosure. Snapshot: `main@fd6cb60`, 9 commits including 2 merges, total 100%. Counts are not effort percentages; refresh after later merges. Codex substantially drafted software, tests and documents and ran local checks. The course supplied ai/. The central-commit explanation is the team's statement; any grading exception is the instructor's decision.

Attestation. We confirm the accuracy of our entries and the AI disclosure and can defend the work. The coordinator confirmed 18 September 2026 as the signing date for all three members.
